1 Content

Blah-blah, we are talking about networks, maybe a quote would be useful $\langle 1 \rangle$. In addition, we mention the idea of packets: they are sometimes called datagrams $\langle 2 \rangle$. And, networks again $\langle 1 \rangle$.

Blah-blah, we are talking about networks, maybe a quote would be useful $\langle 1 \rangle$. In addition, we mention the idea of packets: they are sometimes called datagrams $\langle 2 \rangle$. Aaaaand networks again $\langle 1 \rangle$. But this time, it's also about addressing $\langle 3 \rangle$.

2 Appendix

- 1: Quote about networks.
- 2: Quote about datagram.
- 3: Quote about addressing.
